Specification Data Sheet

8mm Hybrid Herringbone Parquetry - Click Profile for Floating Install - 625mm x 125mm x 8mm

This Hybrid flooring is a robust and highly durable choice for modern interiors. Due to its unique stone polymer composite construction, it delivers 100% waterproof attributes providing ultimate peace of mind for everyday residential living. The visual decors feature realistic timber textures and colours in both classic Australian Timber species and a contemporary Oak colour palette.

Anti-static and will resist common household stains & spillage. The planks include a stabilising balance layer with an attached **1.0mm** cross-linked IXPE acoustic foam layer that delivers excellent noise reduction capabilities to enhance walking comfort and minimise sound transmission. **Product must be installed with 200UM Builder's Plastic on all substrates, do not fill expansion gaps with caulking/silicone. Please check local building authorities for interior wet area installation.**

Key Features; Excellent for renovations over existing ceramic tiles, minimal telegraphing. High impact **0.7mm** Vinyl wear layer. Click for easy floating install.
